Eyery description of Ruling and Binding promptly Howard, a gallant soldier, a most sensible and NEW COAL YARD. W. S. WINSOR LEATHER BELTING, &c. numane man, and conscientions Christian gentle homane man, and conscientious Christian gentleman.

Whitst we write this we have his last official
report before us, and we also have information
from Southern planters and employers, and from
persons friendly to the negroes, and all agree
that the present Bureau is a good and necessary
thing, it was only autiformly administered by
experienced, sensible and good men. The necessity for it lies in this fact, i'at many of the
planters cannot discard their old and filelong
habits of exacting from the colored people
prompt and unreasoning obedience to their commands, and of expecting service with no other
rewards than those they choose to accord. Now,
when they give orders and act in accordance with
filese old liabits and are met with disabedience
or defiance, or demands for larger wages than
they think due, they are just as apt to become
passionnet, resenfult and unreasonable as other
people might be in the circumstances.

This is the course or athirs with some planters
and employers, but not with all, some planters
and employers, but not with all, some planters
and employers, but not with all, such men,
while the present disturbed condition of affairs
continues, need some sensible and authoritative
intermediary between them and the freedome.
At the same time, some of the colored people
have very vague, exaggenced and erroneous notions of their condition in a state of freedom. It
is clear, from the reports and instructions of Gencrais Grant and Howard, and from other authenties outeres, that many of them are under the impression that freedom means a life without work. HURRAH The subscribers have just opened a NEW COAL YARD IN TITUSVILLE, NOTE.—To the citizens of Titusville and rightly: SOTE.—To the citizens of Titusville and vicinity: We cheerfully commend Mr. R. REED & CO., Is bound to sell OHEAPER than any House in M. DUCKWORTH & CO., BRANDR OF tions of their condition in a state of treadom. It is clear, from the reports and instructions of Generals Grant and Howard, and from other authentic sources, that many of them are under the impression that freedom means a lite without work, as their late meaters were supposed to enjoy it that others hold off from were supposed to enjoy it that others hold off from why under the belief that the Government will divide the Mouthern plantations almong them, or give them hand in some way; and that still others are inclined to reline any wages short of these accorded to the white employes of the North. We me putting the ense precisely as the most dispussionate authorities show it to exist.

Here, again, it will be seen there is a necessity for some-authorative, intermediary to lend the colored people to an understanding of the true state of the case, and to bring them and the planters tall employers together. This is the office, in part, of the existing Freedmen's Barcan. So fat as its afairs are administered by the courts established by the Bureau, the operation is as follows; The colored people of neighborhood choose one member of the court, the planters and employers choose another, and the government military agent appoints a third. These the Government representative has been a good, sensible, prudent man, he plan has worked well, and both the colored people on the planters are astisfied, and are glad to be helped by its erency; but wherever the Government representative has been a raw, solf-opinionated, headoing over-zentous or inexperienced young fleutenature of political propagnalist, it has not worked well, and there has been dissailancilous on both sides.

The law, as it stands, is strong enough, and sufficient for all just and proper purposes; the only shortcoming has been in the selection of men to administer it. The same styl would apply to the proposed law of Senator Trumbull, or to any law. It was a wise saying of Poun, that they are good laws were good things, but good men to administer in a carrier W. H. Reading Matter on every page.

Entargement of The Herald. For a second time within a period of six months

we are required to enlarge the size of The HER-ALD, to accommodate the wants of our advertising patrous. Unwilling to eneroseh upon the space reserved for reading matter, but auxious rather to increase its variety, we cheerfully incur the additional expense hivolved in this enlargement. Enjoying an extensive circulation in the off regions, our business classes engerly availthemselves of our columns for subserving their own interests, while the cordial support extended to THE HERALD by the citizens of Titueville is due to the fact that the public at large have bund it a desirable medium for promoting their own prosperity and welfare, and for the expression and interchange of opinions on questions of local will reveral transcriptor

As americanent of the off Interests at large and pocially as represented in this section, our exall matters partaining to the progress and dedelopment of this Petroleum region, and we count smoot our subscribers hundreds of persous who have made investments here but who reside in different parts of the country. For the benefit of this class we have seened regular correspondents from all the leading points of bustness and production in this vicinity, and are thus genoral interest, as they transpire from time to

And we would take this occasion to return our thanks to our occasional contributors for many valuable and deteresting letters . The views and suggestions of experienced operators and the notes of intelligent observers, communicated to obtained fro the public through this journal, have been high--ly appreciated as we are often assured by our readers, and as is proved by their being widely spied by the press of the country. The art of mining for oil is yet far from perfection, and whatever tends to chespen its sont and to resider success more certain should be brought to the public notice and consideration. It will therefore be our aim to present to our readers such mew discoveries, experiments and improvements as may tond to advance and benefit the Petrolounm interest, and to occure this and we invite the co-operation of all who are interested in the

Quite a sensition will excited on mineral at

ruodu by the audien and extenerdinaly rice of to written and this direct in this increasing and the onequent andmersion of much of the adjoining orritory. The warm spring weether of the latter part of the week, broke up the fee in the mill forms and erecursored channel with reststless made and constantly hereasing, folune overslowting the banks at all low points along its course, tome half a dozen oil boxts, torn from their firstenligs were swapt down the current and bridge become choked up with huge masses of ice.

The waters were several luches above the past; ground floors of the dwellings in this locality. The water course near Dillingham & Cole's machine shop overflowed, filling inany cellars on Frankifu street, north of the railroad. The damming up of the stream, and the accumulation of co at the bridge was only temporary, and when a free course was gained the flood subsided, and lev lond appeared

The railroad track near Miller's, was the dine nuder water, but did not prevent the passage of the trains. The flats below were submerged and much damage was done to buildings and property, but we are as yet withour an hentl surficulars of the extent of one loss and lujury ustained.

Oil City, stating that the ice gorge in the Alie-ghany broke away at half-past four o'clock on was instantly swept away, three houses were denollshed, and about fifty boats were crushed by the jam. The tow-boat General Irwin was crushed and sunk. The water is now off the that's at Oil City, and the damage there is comto further damage is anticipated. The total loss \$100,000. No oil lost as far as heard from.

Forged Orders for Oil.

We are informed that shipper's orders for oil t the wells have lately been discovered to have icen forged and oil delivered thereon to teamsers. To guard against such frauds, it is well that each shippor have a private stump or mark. We understand, that is the practice of many of

DELINQUENT Subscriners.-- We own, though t is somewhat to our disgrace, that we have on our subscription books a few who are indebted to us for the Mouning Henald. It is our fault. We aught not to send or deliver to any subscriher, a copy of a paper not paid for. We have to pay Cash for paper, type, ink and printing materials, and every Saturday we have to pay for inbor amounting to over a thousand dollars per-month. An unfinid subscription list is just the slowest, the poorest and most musitifictory amere for raising money that was ever known. Let no man think that we are reflecting on his credit, but, think how much time will clapse be all knowledge of it. A large amount of water ore a hundred subscribers will call and pay up

for their paper, Now, what we want is to have each subscribe look at the printed address of his copy of the HERALD, and if he finds that the date is among he days that are gone, let blin send us Cash the paper. All who do so on or before the 3d of will continue to receive the paper, the others will not. If after that date any man gets a paper from us without paying in advance he may be assured we are trying to make him a present, for which there will be no charge.

THEN AND NOW .- The Philadelphia Ledger re especially as represented in this section, our ex-unities "that a year ago, sig thousand dollars was changes have rolled mainly upon this paper for the outside price of shiking a petrolean well, and from three to four thousand about the average. Now, it is ten thousand. A year ago the per day-now are with one dollar off for taxes The result was, that every well producing two barrels and more per day was worth working Now we see that unless it produces ten barrels it hardly pays to keep it going, but if leased on half shares it is hardly worth anything at less than twenty barrels. Nor will one in tifty of enabled to present the freshest news and to note those sunk produce twenty barrols; hardly that all the developments, events and transactions of proportion poduce ten event. About Pithole not one in twenty pays at all."

The Buffalo Courier learns "trong the parties menced by one of the most eminent lawyers in that city, at the instance of several" of our prominent Fenians, a st the O'Mahoney, for the recovery of ma to have been fraudulently anthority.

be seen that with this number we have entarged the Mouning HERALD. We trust that our sub scribers are pleased, and that they will manifest their satisfaction by increasing our subscription list. Any one of our friends can render us material assistance by inducing others, to subscribe. Ton dollars pays for one year, five dollars for six utlis, two dollars and fifty cents for three months, one dollar for one month.

PURSUANT to notice a meeting of the members of the Board of Trade was held at their room on Saturday night.
There was a large attendance and considerable

business was transacted relative to the government of the Board 00, 2002 September 20 The meeting then adjourned to the next Satur

the report of the Committee for the reduction o CEDCDAGS. LITERARY EXERCISES.—The following is the rder of exercises at the meeting of the C. L. A

on Friday evening next: Lecture—Wm. 6. Morris, Esq. Emay-Revist. H. Taylor, in the same of

Reading-C. L. Wheeler. Essay-R. Cameron, Jr. Reading-John Pontop. The public generally are invited to attend.

Oil stocks are exceedingly dult, and oil tory duller. Several parties have been here lately for a windling operation. There are nine cases pending to during the above stems, which supposes HRRALD, should have been credit delphia paper. Nobody in Titus are has been engaged in stock awindling, that we are aware of

NEW STREE AT PITROLE. The Record Saturday has the following: Noticeday, two of our prominent oil prince had a "set-to" in front of the Chase, House, it regird to a note of hand. Officer Colline arrested both parties, and took them before the Burgues, who fined the assailant \$5.

Managers expesses to chare, a good; publihall. A project is on foot to form a joint stool company with a capital of \$50,000, in shares of \$1,000 each, to put up a suitable hall at a conve-

alent point in that city. Already several thou sand dollars have been paleeribed 1901A14 A sucrey vigilance committee has been form ed in Conneant for the breaking up of all liquor establishments. Sufficient mouse have been sub scribed to carry on the proscention of any deale they may light upon.

WEST MICKOUT, Peb. 28, 1806. According to promise, I purpose to give you my impressions in tyles of West Hickory stars From Our Our Correspondent, Page 14. Feb. 23. for an I have got. " Net I was really at a loss how ponds and creek up the creesus and it rushed to write anything flow, an your valuable cotoning to write anything flow, anybur valuable columns "A Friend" in yesterday's paper cames into have ever been quick to chronicle every event of the defence of one Albert. O. Cox, arrested for laterest to the "off public," At the risk disc. fore, of repeating, the "department taith t"

several of them dashed to pieces. Only two of the creek reminds one of Oil Creek, and treem their were saved from destruction and landed the channel of a mighty river, whose waters below the railroad bridge. The channel at the perhaps for back in the ages crossed along between these, mountain banks, to the Allegiany, which obstruction set back the water and caused, and thence to the Ohio and Mississippl. But no the inunfation of the premises lying between the matter, 'tis with the present we deal, and here we have mystery enough without raking up the dead I first visited the mouth of the creek, where

appeared the gem of a future city. About two dozon buildings as yet strangers to paint and plaster, seem to have spring up Approdite like out of the form of the river. It struck me that I had seldom seen finer sites for a town. Nature seems to have made a plain of Just the right size for the purpose, wille the scenery with and mountains covered with everyreens beyond, surjegated shrubbery linking the creek must be not only "truly rural," but ever, beaut ful in summer. I here had the good fortune to meet Mr. J. M. Clark, at the office of the Hicko. Farm Oil Company, from whom I learned : ustained.
We cave a special telegraphic disputch from few facts regarding this new town. One had dred leases of town lots have been sold. lots are 25x100 feut, are leased for a term of five saturday afternoon. The bridge at that point years for \$100 per year, payable quarterly in advance. Forty days are given for commencing building. The best lots already command a premium. For the next thirty days the leases already given warrant the belief that one building will be commenced each day. Messrs Bow paractively trining. The river lee is moving, and er & Burch are about to erect a hotel which shall be three stories in height and ready for business, thus far is estimated at between \$50,000 and it is calculated in thirty days. Mr. Drake, merchant at Pinmer, is building a large storehouse The "National Hotel," just being completed, is

owned by Mr. Drake, and blds fair to be a good botel for the place. The town is not yet christened, but I was happy to be assured by Mr. Clark who has charge of these desirable leases at the Hickory Farm office, that some name would be chosen without the useless appendage of "enty" attached, believing that as "a rose by any other name would sincling sweet," so here a city in fact will rise as soon if it be not a "city called." The Warren & Franklin railroad from Irving to Olcopolis, is expected to be finished by June.

ant stations will be at the mouth of the creek. But we ascend the creek after first visiting the two wells at its mouth, owned by the Hickory Facts Oil Company, Well No. 8 was struck Feb. 2d at a depth of 230 feet, and is claimed to produce ten bacrels of heavy oil per day. Its gravity is 34 deg.

No. 2. struck in March last at a depth of 111 feet, is also pumping. I was told, ten harrels, but tes tank being minus a ladder, I have no personwas issuing from an applugged hole at the hottom of the inik. I next passed an old well, now quiet, which had been sunk 400 feet, and then visited No. 4, Hickory. This well, as I was told, was sunk 176 feet in May, and pumped 5 barrels, and then was sunk deeper. At a depth of 280 at the rate of \$10 per year for the time he wishes feet a little oil was found, and drilling was recommenced. Its depth is now 900 feet and it is to be sunk to a depth of 1,000 feet, or through the third rock. This the company does. On the the first from 80 to 120 feet. I was informed that four one-fall acre leases on the Hickory Farm, were sold the other day for \$2,000. The company have given only alternate leases and have now none left to soil.

No. 166, Hickory, is down 85 feet. M. N. Moulthrep lessee No. 140, Hickory, is deiving pipe. It is owned by the Kendall Oil Company. No. 128, Comstock (or Tracy) well. The largest producing well on the creek, was atruck February 12th, at a depth of 250 feet. The oil is 30 deg. gravity. Amount claimed, 100 harrels per day. voted it a "big well." The fact is, these Hick ory wells, like those of Canada, produce so large propertion of water with their oil that it is extremely difficult for a "stranger" to form any approximated correct estimate of the amour ounts claimed; and expect the reader to make the usual allowances for curse of oil business. At this (Tracy) well the Hewes (or Hughes) patent pump was being used, and very satisfactorily. I was informed. found it satisequently at the Parket well? /1 the issuing and sale of passed No. 117, down 130 feet; No. 109 down 36

No. 92, the Baker well, commenced producing oil at a depth of 212 feet, February 19, is owned mostly by C. C. Barker & Son, of Syracuse, N. Y., and R. P. Crosse, of Planner. They claim "see it" inysetf. Its prospects are improving. On the Mauross Farm also, I found a great deal of activity in developments. This farm seems to be a favorite just now. There are, I should judge, more than 20 wells going down on it. Among others the Ladies, Well," owned by ladies, as its name impiles, though not ready for testing, is expected to be the biggest well on the creek" in course of time.

Of wells producing, there are the Ball, said to be yielding twenty berrels, the Percy, ten bar-

Shoridan City is a new town attaggling for rerognition, on the hillside of the Manross cognition by the Postmanter General. The Manose House is doing albeavy business, being the rincipal hotel on the creek.

City looms up, but what a burlesque on cities! No. 38. White form, once said to be an eight bersome temporary difficulty. No., 40 is claimed to ness. Jredictions advertising is always a good in produce ten barrels, gravity of oil 42 deg. The vestment. Union well is pumping a great deal of water, and t is said fifteen barrels of oil;

On the middle division of the Fleming farm m. H. Davis le superintendent, I wells going down, but none yet nriace indications, are very favor "Hickory Centre," located on the bost alto for town above the people of the creek. As at sheridan City and Venango City there are about a dozen buildings of rough boards crected here. A post office is here, too, applied for. The build ing lots are 33 by 99 foot, with lease for a term of years, at prices, ranging from 450 to \$150 per year. Mr. Wm II Davis, the superintendent of the furn, has charge of the leasing of town lots

it itickery Centre. I learn that a couple of tolkin above, on the Mills farm, the town of Gillespie is being built under the anapiers of Col. J. F. Dancas.
The whole number of wells now being sank on

this creek is estimated to be two bundred. The aging—for the weifs, though small, have proharrel. At present there seems to be little marright formi-that of notical development of terri-Hery! A large proportion of the wells were commenced with the expectation of "selling out" enough to pay the cents of the driffing. As a result, the large number of takeness thrown major a talk market here bringle down their point to digners which would have been considered below to digners which would have been considered bideachallingly low, he wenters. The examine mond with the expectation of "solils state and by brought for \$800 or \$800." Many f the contines from the " dry halos we .Ph

From Pleasantville-More about Cox-Oll

false pretences and who after a full hearing before our magistrate Esq. Connelly, was went to In surface formation, West Hickory is Pithole Prankin in default of ball to await his triat, and intensified. The deep gorgo through which runs the chief chief chief chief appu which he was beid Friend" who helped defraud blin, well knows, and upon which he will be convicted as sure as fate, if his case ever gets to a trial. In view these facts what becomes of "A Friend's" bold assertion, that the charge made against this Cox for false pretences "is one of the blackest false hoods that has ever appeared before the public." and when to, by "A Friend's" own admission in nessing in the valley along the Alleghany's bank the same letter that he was so held to buil, I will bere inform "A Friend" what may believe

o him and may not, that Sherill Harris who has just returned from Franklin, where he took the aid Cox to jail, at Cox's request selicited the jailer to give said Cox the liberies of the yard, which was granted. He further informed me leaving his cont and gloves, as legacies to his nemory, and thus far has evaded the officers of the law. It is reported that he has since been in our city but whether he called and paid 'A Friend' or not for inhoring so zeniously in his behalf be- ket. forethe justice, your correspondent has not been informed. I will further inform "A Friend" that have a letter just recieved from Elkhart, Indiaba, the late residence of the said Cox, which says he could not get a credit there of ten dollars in the entire place. I will further inform "A | Friend" that I have more clients still who desire the presence of the said Cox to answer for his crimes, among them a young man who was hiduced by Cox to lend him three hundred dollars, his entire pile, only for ten days, and carned by school teaching. But the whole community here and everywhere else where he is known, know that State's prison is robbed of its just dues.

The Netileton well here having filled its large tank amid allits embarrasements, has commenced hauling to your city its oil A new well two and a batt miles south ees

from here has just been struck on the Golden Farm, known as the Golden Well. I learned these facts from Mr. Cavil its superintendent, who resides here. A moderate estimate makes at lear a fifty barrel well.

Yesterday I was informed that another neell was just struck a mile and a half south of here on West Pithole, by the Bennington Oil Co.; this well is between the Olive well and the new well before referred to, of the National Oll Comwe are soon to have a telegraph office here, all

which, with our other additious to the place contirm our reputation as an enterprising town.

THE METROPOLITAN INSURANCE COMPANY. The annual statement of this company for 1865, though one of the most calamitous years ever exred by insurance companies, contains one of the most flattering array of figures that distin guishes any insurance association in New York. Its gross premiums received for the Year ending nher 1805, amount to \$1,701,947 89; its net earned premiums to \$1,205,340,00, and its net profits, after payment of expenses, reinsurance, commissions and taxas, amount to \$155,014 90 .-This is the work of twelve months in very adverse times, and the handsome profits of the year were not acquired without the employment of stest skill and sagacity by the management. The company possesses kipild-sip capital of \$1,000,000, to which is added a surplus, on the irst of January, 1866, of \$664,148 48 _making a otal amount in capital and surplus of \$1,064, 148 48. Upon the basis of its profits the company has declared a dividend of six per cent, or the outstanding certificates of profits; a dividend of five per cent. in cost on demand on the cap tal slock of the company; a dividend of twentyfive per cent, in scrip on the net carned parties pating premiums of the company for the year 1865. It is impossible to have a higher record nendation to public favor than this company's statement of 1865; but it may be remarked that for the twelve years of his existence, the earlier portion of which must be comidered as its ininoy, the company has carried the average sum of \$50,000 per manual to surplus capital, after discharging every expense, and dividing amongst its participators and stockholders very handsome E. Mills, resident agent, Titus-Mid BE V 510 C 510 C

LOSEE'S CLOTHING HOUSE.-The old Titusville Clothing House, No. 7 Spring street, is a standing attraction to all who are fundler with the adrantaclothing. His present stock of goods was par chased during the decline in prices, and selected with special reference to the latest patterns and the most desirable styles. No customer can full to be "suited" either in regard to quality or price, Mr. Losce is one of the pioneer merchants of the oll region, and is personally or professionally known to every resident in this section of the advertisement of better barrains than have ever before been offered in this market, and he will soon replenish his shelves and counters to meet the demand for spring and summer goods.

PLEASANTVILLE .- Appreciating the value of the HERALD as an advertising medium, Mr. W. els, and the Lawrence, twenty barrels of light H. Daugherty, spreads before our numerous readers the fact that, he is selling goods at Pleasant call on him. He is agent for those famous wines learn that its prospects are good for official re- from Brockton, no compounds of drugs and poor Catawba grape. An Halland physician has recently discovered aremedy for certain forms of neuralgan. Attributions the philancy of the discose, (indicate neuralga) to the variations of temperature so frequent in Bielly, he adopted the expedient of consisting all the painful pare with a thick conting of collection, containing a certain proportion of the hydrochlorist of morphine. This treatment was "pricetly successful, the relief was measurement and the conting full of has recently visited the Mormons in Illuois, over whom Joseph Smith presides, gives this description

I had not imagined the Mormons of the Jo-Smith party were so numerous. I am told there are no less than ton thousand of whom the majority are in Illinois, and the rest in neighboring Blates. The most considerable settlement is at Plano, a thriving village, situated about hith miles west of Chicago. Here resides Joseph Blates. The most considerable settlement is at Plano, a thriving village, situated about hith miles west of Chicago. Here resides Joseph Blates. The most considerable settlement is at Plano, a thriving village, situated about hith miles west of Chicago. Here resides Joseph Blates. The most of the laping on of bands of his noble father, 'Joseph Smith, the marryr, as he is culled by the fashbith.

By Albeby, there is no doubt that the assassination of the Mormon prophet give a powerful imputes to the advancement of this, as w and strange religion. "The blood of the marryra is the seed of the chirach," as well for here-slarchy shows the biorarchy. The proof that Joseph Binth, Jr., is the lawtel successor of his sire, in the aposticship of the Mormon seet, is very ably set forth in a late number of a weekly newspaper now bling before the, entitled, The True Latter Day Saints' Hervid. This paper is educed by the prophet himself, it is published at Pluto and bears for its motio. 'Hanken to the accord of the Lord, for there shall not any man among you have save it to one wife, and ed. ""." A he shall have none."—[Book of Mormons And on this point minih hangs the difference of eraed hetween the rivel parties. Smith and his followers say that young and he discephes have not "headkned to the word of the I ord," but falling into the sin of polygamy and defand ing the same are thereby heretical and accursed oceph Smith is not arith mm, and, indeed, by way of testimony against the weath and worldliness of Brighum Young, he we hilmself with an ostentations poverty of appared and equipage.
